Special considerations and other comments:

Where did you hear about the Building Tune-up and Retro-commissioning Programs?

EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, please visit <https://energy.maryland.gov/Pages/Facts/empower.aspx>

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.

Potomac Edison offers a suite of programs to benefit all customer sizes and project types. To view all available Potomac Edison EmPOWER offerings please visit <http://energysavemd-business.com>
