proof of completion

*Tell your referral to add your name and contact info
when asked on the survey.*

The Building Operator Certification® (BOC) Training Level I course is designed for building operators, engineers and maintenance staff. The virtual course teaches building operators to find practical low-cost and no-cost efficient solutions by working with existing systems. Independent research shows that **BOC operators consistently save money and energy in their facilities - up to \$20,000 per year on average!**¹

Do you already have experience as a building operator? The BOC Level II course prepares building operators to dive deeper into building performance with a focus on improving energy efficiency.

PROGRAM BENEFITS

Builds the foundation needed
for BOC Level II course

Promotes career growth
through complimentary
professional credentials

Provides professional
competence in energy-efficient
building operations

Develops a standard for
educational programs for
building operations staff
