## WHICH PROGRAM IS BEST FOR MY PROJECT?

want to process a rebate application, including lamps/

bulbs or HVAC replacements

	<ul> <li>Lighting/HVAC/Appliances/Agriculture Programs</li> <li>Instant Discounts (Midstream)</li> <li>Custom Equipment</li> <li>Solar</li> <li>Combined Heat &amp; Power (CHP)</li> </ul>	<ul> <li>Building Tune-up</li> <li>Retrocommissioning</li> <li>New Construction</li> <li>Custom Building Improvements</li> </ul>
	L Lighting P Prescriptive D Instant Discounts	BT Building Tune-Up RCx Retro-commissioning
	LIGHTING/PRESCTIPTIVE/ INSTANT DISCOUNTS	<b>BUILDING TUNE-UP &amp; RETROCOMMISSIONING</b>
AVAILABLE MEASURES	<ul> <li>Installation of controls/higher efficiency LED and fluorescent lighting. LED linear, LED fixture (interior and exterior) LED refrigerated case lighting &amp; streetlighting</li> <li>Lighting: Non-networked controls, LED exit signs, LED bulbs</li> <li>HVAC: AC units, Chillers, Heat pumps, PTAC/PTHP food service, Electronics, Agriculture</li> <li>Midstream: Lighting, HVAC, Food Service</li> </ul>	<ul> <li>Equipment repaired, replaced or upgraded as part of Tune-Up: HVAC, HVAC Controls, refrigeration controls, lighting, lighting controls and facility optimization schemes. (<i>e.g.</i>, HVAC controls to optimize rooftop units and air handlers; Variable frequency drives (VFD) for fans and pumps.)</li> <li>Operational improvements of mechanical, lighting, and control systems (<i>e.g.</i>, Adjust controls for HVAC &amp; lighting systems, economizer optimization, elimination of overcooling/heating, and adjustment of chiller settings)</li> </ul>
ELIGIBILITY	Commercial and industrial FirstEnergy's Pennsylvania customers	<ul> <li>Commercial and industrial FirstEnergy's Pennsylvania customers</li> <li>Commercial and industrial FirstEnergy's Pennsylvania customers with a building (&gt; 2 years old) and mechanical equipment in good condition (not near end of life)</li> </ul>
INCENTIVES	<ul> <li>Based on \$0.05/kWh saved. Retrofit projects are capped at 100% of material costs</li> <li>Based on fixed per unit/per ton incentive rates</li> <li>Point of sale discount on qualifying lighting products, HVAC equipment and food service equipment.</li> </ul>	<ul> <li>Cover up to 80% of total installed project cost. Incentives are tiered with greater dollars available as additional measures are installed.</li> <li>RCX All verified energy savings paid at \$0.10/kWh. Additional incentives are available for an energy audit. Audit incentive is paid at \$0.05/kWh up to 50% of audit cost, or \$10,000, whichever is lower.</li> </ul>
INCENTIVE	<ul> <li>Paid to the customer or a third party.</li> <li>Deducted from the product costs at the point of sale.</li> </ul>	Customers pay "copay" at project completion. Incentive funds are paid to Program Ally
<b>PROGRAM</b> <b>APPLICATION</b>	The customer or contractor can apply for incentives via the online portal.	Program Ally who installs project can apply for incentives which are paid on project completion.
USTOMERS	<ul> <li>Who upgrade/replace existing lighting system and/or network controls</li> <li>Who know what products they want and are interested doing standalone energy measures</li> <li>Who know what eligible products they want and do not</li> </ul>	<ul> <li>Interested in conducting multi-measure energy-saving projects in their facility and want to maximize their incentives for doing so</li> <li>Interested in optimizing their mechanical, lighting, and/ or controls systems to maximize their energy savings</li> </ul>

**Implemented by: Willdan** 

Met-Ed • Penelec • Penn Power • West Penn Power

Solar

**Custom Building** 

CBI

Commercial

New Construction

<sup>2</sup> Conditions apply.

<sup>3</sup> Incentives are capped at 50% of the total project cost up to \$500,000.

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysavePA.com.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs. PA customers who have existing contracts with third party demand response service providers that were executed before June 1, 2021 (i.e., the start of Phase IV of Act 129 EE&C), have the option of retaining the PJM capacity rights associated with EE&C projects when participating in FirstEnergy PA Act 129 energy efficiency and peak demand reduction programs.

FirstEnergy's Pennsylvania electric companies, their parents, subsidiaries, employees, affiliates, and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor.
