

BUILDING TUNE-UP PROGRAM

Maximize your facility's energy performance with the Building Tune-up Program from FirstEnergy's Pennsylvania electric companies.

FirstEnergy's Pennsylvania electric companies¹ provide a comprehensive mix of energy-saving measures for non-residential buildings of all types, including commercial, industrial, government, institutional and nonprofit.

Whether you need a simple tune-up of your HVAC system, refrigeration upgrades or high-efficiency cooling systems, FirstEnergy Pennsylvania's program has something to offer.

Sample measures include:

- HVAC controls to optimize rooftop units and air handlers
- Variable frequency drives for fans and pumps
- Refrigeration controls for evaporator fans and door heaters
- Lighting, lighting controls and optimization schemes
- Dual enthalpy economizers for HVAC
- Other complimentary program eligible energy-saving measures

PROGRAM BENEFITS

Get up to 80% off installed equipment.

Maximize Your Savings with Additional Upgrades:

¹FirstEnergy's Pennsylvania electric companies are Met-Ed, Penn Power, Penelec, and West Penn Power

Energy Efficiency Made Easy!

From enrollment to incentive, it's easy to find the best energy-efficient solutions for your facility.

1

Enroll

Contact us to discuss your planned project.

2

Analyze

Get connected with a Program Ally Contractor who can suggest eligible upgrades.

3

Implement

You work with a FirstEnergy Program Ally to complete the scope of work.

4

Verify

We work with Program Ally to verify project completion and incentive.

5

Save

Save up-front with reduced project costs thanks to FirstEnergy incentives, and save long-term with reduced electricity use.

Customer Eligibility

- The Building Tune-up Program is available for most non-residential project types including commercial, institutional, industrial, governmental, non-profit and multifamily common areas.
- Building Tune-up Program participants who select multiple upgrades will unlock higher program incentives.

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysavePA.com.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs. PA customers who have existing contracts with third party demand response service providers that were executed before June 1, 2021 (i.e., the start of Phase IV of Act 129 EE&C), have the option of retaining the PJM capacity rights associated with EE&C projects when participating in FirstEnergy PA Act 129 energy efficiency and peak demand reduction programs.

FirstEnergy's Pennsylvania electric companies, their parents, subsidiaries, employees, affiliates, and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor.
