CUSTOM BUILDING IMPROVEMENTS ASSISTANCE

RECEIVE FINANCIAL INCENTIVES FOR YOUR ENERGY-EFFICIENT FACILITY

The Custom Building Improvements (CBI) Assistance Program offered by FirstEnergy’s Pennsylvania utilities provides complimentary analysis and financial incentives to help offset the cost of implementing energy-efficient strategies for existing commercial, industrial, government, and institutional buildings. Our program provides you with the tools and incentives to improve your building’s energy performance.

COMPLIMENTARY ANALYSIS

Customized analysis shows the energy savings, cost savings, and incentives associated with your energy efficiency plans. Receive results that align with your implementation schedule.

INCENTIVE¹

Help lower the cost of implementing strategies. Incentives are based on annual electric savings as modeled and verified-as-installed by FirstEnergy’s Pennsylvania electric companies.

LIMITED TIME OFFER INCENTIVE STRUCTURE²

\$0.15
per kWh saved

\$400
per kW (average coincident) saved³

¹ To be eligible for incentives, all lighting must be DesignLights Consortium (DLC) or ENERGY STAR® listed, and all food service equipment and appliances must be ENERGY STAR rated. Incentives are paid upon construction completion.

² Incentive increase, effective October 30, 2023 through September 27, 2024. Conditions apply.

³ Coincident peak window: June 1 – August 31, 2–6 pm, non holiday weekdays

CUSTOMER ELIGIBILITY

Custom Building Improvements Assistance is available for most project types including commercial, institutional, industrial, and multifamily common areas. To qualify, participating projects should be:

- In FirstEnergy's service territory
- An existing building that is heated and cooled and is exploring:
 - Building shell improvements such as wall/ceiling insulation, and windows
 - A project scope that impacts multiple, interacting systems (HVAC, lighting, envelope) in the building

STREAMLINED PROCESS TO ACCOMMODATE YOUR PROJECT SCHEDULE

1

Enroll

Provide your building's basic information in our application.

2

Project Review

Understand your current energy use and building improvement plans.

3

Analysis

We'll analyze energy savings and determine your eligible incentives.

4

Verify

We will confirm your project was built as planned and issue a verification report.

5

Earn

Utility incentives are provided for the completed project.

FirstEnergy's Pennsylvania utilities offer a suite of programs to benefit all customer sizes and project types. To view all available Commercial and Industrial offerings please visit energysavePA-business.com.

The costs of energy efficiency programs are recovered through customer rates in accordance with PA Act 129 of 2008. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit energysavePA.com.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs. PA customers who have existing contracts with third party demand response service providers that were executed before June 1, 2021 (i.e., the start of Phase IV of Act 129 EE&C), have the option of retaining the PJM capacity rights associated with EE&C projects when participating in FirstEnergy PA Act 129 energy efficiency and peak demand reduction programs.

FirstEnergy's Pennsylvania electric companies, their parents, subsidiaries, employees, affiliates, and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor.
