

## Incentive Request Form

Application ID Number:	Account Number <i>(Required)</i> :
Applicant Company Name:	

When you apply for a Retro-commissioning Program incentive through the Energy Solutions for Business program from Potomac Edison, you have the option of splitting the approved incentive amount into two payment checks. When you complete and submit this form, you can assign any percentage of the approved incentive to be paid directly to the third party listed in the authorization box below. Please note the following:

- Customers must authorize the payment of any incentives to a non-participant (any third party). Without the customer's consent, an incentive check will not be issued to a third party.
- Submission of this form will override any third-party authorization entered through the online application portal form.
- This form is applicable to the Potomac Edison Energy Solutions for Business program; a separate authorization must be submitted for each application.

This authorization may be cancelled or changed by the customer at any time prior to final application approval by providing a written notice to the program. Changes and cancellations will result in a confirmation email to both the customer and the third party.

A signed W-9 form is required for all parties designated to receive incentives. No portion of an approved incentive will be paid to either party until all required documentation is received by the program.

EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, please visit <https://energy.maryland.gov/Pages/Facts/empower.aspx>.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.
